1973 ANNUAL INDEX

RADIO-ELECTRONICS January-December 1973 of Vol. 44

A

Add voice actuation to your phone sentry (Smith) Oct 58

Amplifier(s)
- 4-channel power (Meyer)* Mar 39, Apr 62
- IC, three Apr 51
- Switching from 4-channel to 2-channel (Feldman) Jul 32
- Test, 8 ways to (Palmer) Jul 37; (Corres) Sep 24
- Tigersaurus—250-watt hi-fi (Meyer)* Dec 43

Antenna(s)
- Fringe reception, new for (Green) Oct 48
- MATV, wire a house for (Walters) Sep 33
- Miniature (ER) Jun 97
- Outside antennas, inside story of (Belt) Sep 40
- Small (ER) Oct 26

Appliance(s)
- Clinic (Darr)
  - Carving knives, electric Oct 24
  - Floor polishers and carpet scrubbers Aug 22
  - Heaters, electric Jun 90
  - Interlocks Jan 88
  - Matches, electronic Nov 26
  - Motors, reversing ac Jul 84
  - Safety precautions for service men Sep 89
  - Speed controls and black boxes Dec 26
  - Timers Mar 32
  - Vacuum cleaners Apr 85
- Radar oven repairs (Mackenroth) Aug 37

Arithmetic, understanding computer (Roberts) Nov 58
ASCII keyboard encoder (Lancaster)* Apr 55

Audio—high fidelity—stereo
- Amplifiers
  - Switching from 4-channel to 2-channel (Feldman) Jul 32
  - Test, 8 ways to (Palmer) Jul 37; (Corres) Sep 24
  - Tigersaurus—250-watt hi-fi (Meyer)* Dec 43
- Filters, active—how they work (Lancaster) Nov 42
- Hearing and hard rock (Coronado) Mar 68; (Corres) Jun 16
- Music synthesizer, modular electronic (Simonton)* May 38, Jun 56, Jul 46, Sep 53, Oct 60

- Servicing—**see** Service clinic; Servicing; subjects
- Speakers
  - 4-channel, off-beat (Petras) Mar 43
  - Public address system, how to set up (Bogen Div.) May 51
  - Protection Sep 61
  - Specs, facts and fallacies (Feldman) Sep 62
  - Two new hi-fi systems (Feldman) Dec 48
- Stereo (**see also** Audio: Stereo, 4-channel)
  - Cartridge (ER) Sep 30
  - Preamp, "zero distortion" (Kay) Jan 62
  - Receiver, solid-state (ER) Feb 32
  - Width control (Ckt) Mar 104
- Stereo, 4-channel (**see also** Audio: stereo)
  - Amplifier switching to 2 channel (Feldman) Jul 32
  - FM—9 ways to go (Feldman) Oct 40
  - IC's for FM circuits, new (Leckerts) Oct 44
  - Matrix: how good is it? (Walters) Mar 35
  - Power amplifier (Meyer)* Mar 39, Apr 62
  - QS Matrix—another road to records (Feldman) Nov 35
  - Receiver (ER) Nov 61
  - Record review (RE staff) Oct 43
  - Records, setting up for CD-4 (Friedman) Oct 33
  - Speaker systems, off-beat (Petras) Mar 43
  - SQ logic (Feldman) Jun 44
  - Takes off—equipment roundup Oct 29
  - Tape players, car (Peters) Mar 54
  - Unscrambling (Friedman) May 54; (Corres) Jul 16, Jul 83
- Tape
  - Bias level, key to quality recording (Friedman) Mar 51
  - Car players, stereo (Peters) Mar 54
  - Cassette phone sentry to take calls (Smith)* Jun 35
  - Cassette recorder, mobile power supply (Ckt) Feb 98
  - Deck drive-belt slippage Feb 42

Automatic color controls (Stevens) Jan 45

Automobile
- Burglar alarm kit (ER) Mar 26
- Electronics for (Shane) Apr 35; (Corres) Sep 24
- Lights-on reminder (TT) Feb 90
- Multivibrator for tachometers and speedometers (Garner)† Sep 65
- Tachometer, digital (Bunge)* Apr 42
- Tape players, stereo (Peters) Mar 54
- Timing (Corres) Mar 22

Radio-Electronics has done its utmost to insure that the listings in this directory are as accurate and reliable as possible; however, no responsibility is assumed by Radio-Electronics for its use. We have used the latest manufacturers material available to us and have asked each manufacturer covered in the listing to check its accuracy. Where we have been supplied with corrections, we have updated the listing to include them. The first part of this Guide appeared in March 1973.

Clean up your church . . .

school, club, or business sound system with the new Electro-Voice LR4B Line Radiator.™

The new Electro-Voice LR4B Line Radiator squarely meets the challenges of critical listeners and demanding users. You get wide-range, smooth response that makes everyone sound good . . . voice or music. And the coverage pattern from our unique multi-faceted design helps reduce feedback compared to less sophisticated column speakers. This means more useful gain is available when inexperienced performers get off-mike or don't speak up.

The LR4B is just one of the useful tools E-V has designed for the thoughtful sound man. Our catalog is available for the asking. See your Electro-Voice sound specialist, or write today.

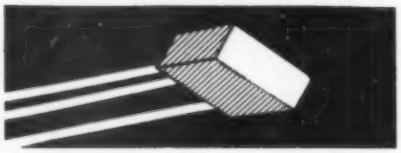
New Hybrid Speed Control for fractional H.P. motors



The HA-1, a new miniature control (3 amps continuous duty), will vary the speed of small fractional H.P. A-C motors. It's small size makes it easy to install in hand-held electric tools and small appliances such as mixers and blenders.

A potentiometer used in conjunction with the HA-1 Control is all that is required for motor speed control. Control unit senses armature voltage with varying load conditions and regulates RMS current thru series wound field and armature. Motor speed can then be varied to desired speed by potentiometer setting.

HA-1 Speed Control only - - - **$5.95 P.P.**
HA-1P With Potentiometer- - - **$6.95 P.P.**

NEXT MONTH

Communications is the special subject for January 1973. We've got articles on CB Circuits, New CB Gear, Short Wave Receivers, and CB Repairs. In addition there's a story on New Hi-Fi circuits and a construction article that tells how to build a meter for your electronic flash. Then too there are all the regular monthly features like Step-By-Step Troubleshooting, Service Clinic, Transistor Replacement Guide, and Appliance Clinic. You won't want to miss this one.

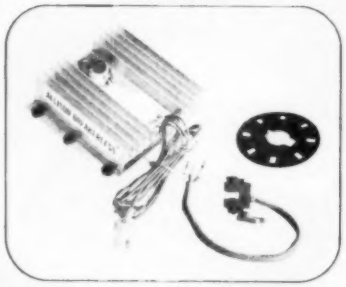
Eliminates Breaker Points. Eliminates Tune-ups. Never wears out or needs any maintenance. Timing and Dwell never change.



The ultimate in ignition systems—The Infrared Breakerless Electronic Ignition System by Allison Engineering.

The Allison Breakerless Ignition system eliminates the points and condenser, replacing them with an optical trigger, using a light emitting diode and phototransistor. Only a system which eliminates breaker points can eliminate tune-up causing wiper arm (contact point rubbing block) wear and give the performance, economy and reliability of true electronic ignition. This is why GM and Chrysler use only breakerless electronic ignition in their new car models.

This is the only true electronic ignition that you can install on your car for under $100.00. The system gives ignition timing 40 times more accurate than systems using breaker points. Actually increase engine efficiency and gas mileage up to 30%. Will not misfire under any conditions. Installs in 20 minutes using existing distributor & coil, no rewiring. Ten times as much energy available for plug firing. Spark plugs last 3 to 10 times longer. Unlimited R.P.M. capability. Tests prove dramatic increase in power and performance. Precision timing means instant starts in any weather and noticeably smoother running. An average 30% reduction in emissions.

Installing the Allison Breakerless Ignition in your car converts the present inefficient trouble prone system to the most advanced electronic ignition system available. Remember if it is not breakerless then it is not true Electronic Ignition.

To order: state make, year and engine size. $49.95 PPD., or $15.00, balance C.O.D. California residents add 6% tax. Trigger only (converts add-on units to breakerless) $39.95 PPD., $15.00 C.O.D. Allison Automotive Co., P.O. Box 973, Temple City, CA 91780. Units available for all cars, FREE LITERATURE.
